ANTIOCH, ILLINOIS, THURSDAY, SEPTEMBER 20, 1923

NO. 3

ANTIOCH IN WIN OVER ALGONQUIN

Lake Villa Again Loses to
Glenview By a
6-3 Score

PLAY DUNDEE SUNDAY

Jess Davison's mighty pitching, an accident to Bailey, Antioch's first baseman, and a four run rally in the eighth inning featured the 5 to 4 win of the Lake County squad over the Algonquins at McHenry Sunday.

The accident to Bailey in which the latter received a broken arm, occurred in the first inning. The leadoff man for the Algonquins hit to Davison. The latter tossed the ball to Bailey, who reached out for it. The runner ran into the outstretched arm and fractured it at the elbow.

Lynch, a substitute, formerly of the Texas' league, took Bailey's place on the initial sack. He played good ball, coming across with a double at a critical moment in the eighth inning rally.

Algonquins were ahead 4 to 1 when the splash came. Gross doubled for his fourth consecutive hit of the game. Kerns went out on an infield hit, but Gross went to third. Rogers singled, scoring Gross.

Lynch then came across with a double, putting men on second and third. Bill Stanzuck pinch-hit for Ehrhart and sent a screaming triple into the outfield, tying the score. Kingsley, catcher, singled at the crucial moment and sent the winning run across the pan.

Davison gave the opposition only one earned run. In the fourth inning he fanned three men on 11 pitched balls, and in the fifth he whiffed the first two on seven pitched balls.

The score by innings:

Algonquins ... 2 1 0 1 0 0 0 0 — 4

Antioch 0 0 1 0 0 0 4 x — 5

Glen View proved that it's either a "jinx" with Lake Villa or its playing in the higher class of baseball when it trounced the Lake County champions for the second time this season, 6-3.

Lake Villa outfit the Glenview squad, getting eight bungles off Eddie Stack, ex-Cub hurler for the Glenview aggregation, while Bixby allowed but five swats to the opposition. The Glen View nine showed classier work in the field, playing tight ball while the locals were boating hits and generally bungling the pellet. Tornquist and Waizend had a bad day in the infield, both making costly miscues.

The first game between the two teams had gone to Glenview 3 to 1.

Sorenson was the only local player to stretch his hit into a double. All of the rest were short singles which Stack kept well scattered.

Glen View took the jump in the first and soon had a three-run lead. Lake Villa then got out its trusty bludgeons and smashed the ball for three runs, tying the score. In the seventh inning Glenview, with the aid of several errors crossed the pan three times and put the game in the ice box.

Next Sunday will see one of the toughest contests of the season and it will be played at "W" park, Waukegan, thus giving the Waukegan fans another chance to see Bixby and eight other players in action. Dundee aspirants for the championship of central Illinois, will be the other nine on the field. Indications point to a record crowd and a rippling game.

Bixby has been going very good in the last two months and has been pitching ball that ranks with the best. He lost Sunday's game through loose playing on the part of his teammates. The score by innings:

Lake Villa 0 0 0 2 0 1 0 0 0 — 3

Glenview 1 0 2 0 0 0 3 0 x — 6

YOPP BROS. TAKE 99 YEAR LEASE ON HUNTING GROUND

The entire north end of Grass Lake, known as the Frank Hatch farm, has been leased by the Yopp Bros., famous hunters of Hubbard Woods, for hunting purpose. This includes Hickory Island for years a favorite spot with duck hunters. The Yopp brothers have leased hunting lands around Antioch for several years.

20 Years Ago in Antioch

Thursday, September 17, 1903
Mrs. R. C. Higgins visited in Delavan last week.

Miss Ethel Williams of Chicago is spending the week at home.

John Turner of Chicago visited over Sunday with his parents.

L. B. Grice left for Huntington, Ind., on Wednesday where he will remain a few days.

Miss Ethel Thayer left for Caledonia, Wis., last week where she will teach school the coming year.

J. C. James, Jr., has been confined to the house for the past week on account of sickness.

John VanPatten and wife left for Chetek, Wis., Thursday of last week, where they will probably remain during the winter.

Mrs. R. M. Haynes of Waukegan, Wis., visited a few days this week with her sisters, Mrs. John Hancock and Mrs. Neil Nelson.

The following wore Chicago visitors Friday: W. T. Hill, Geo. Willis and Dr. Warriner.

The Misses Addie Wilton and Josie Mann visited at the latter's sister's, Mrs. Austin Savage of Hickory and attended the society held there on Saturday.

LAKE VILLA CROSSING TO BE PUT IN SHAPE

Action toward the improvement of the stretch of road between the two concrete roads at Lake Villa was taken the past week when Supervisor Barney Naber and Street Commissioner Frank Dunn went before the Maintenance Committee of the board on roads. The present plan is for the county to grade this stretch of road and the citizens of Antioch and Lake Villa to jointly pay for the gravel and hauling.

An approximate cost of about \$800 has been estimated as the probable cost for this improvement and it is expected that a subscription list will soon be made up to raise this amount.

This stretch of road is being left open until the state and the Soo Line railway can come to some agreement on an overhead bridge. While the state and Soo Line have agreed on an overhead that will take the road part through the E. J. Lehman estate, Mr. Lehmann has not as yet given his consent to the route as planned by the state.

This road last year was impassable, and closed the town to outsiders for quite a while. Mr. Russel, county supervisor, promises to keep a mailman on this stretch.

LIBERTYVILLE FAIR ASSURED FOR 1924

The Lake county fair at Libertyville is assured for next year because of the good showing made this fall, according to an announcement made to the board of supervisors by Supervisor Eger of Libertyville.

Mr. Eger declared that between \$3,000 and \$4,000 was made above expenses, probably the largest amount, made in years. Because of this, the fair will be held next year.

The supervisors complimented the officers of the fair for the showing and on the conduct of the exhibits.

Earlier in the season the matter had been threshed out in the board of supervisors meeting on a request for money. The top amount that could be appropriated legally at that time was \$300 and this was felt too small to carry the exhibits through.

Later the officers of the fair board gathered and decided to handle the financing of the fair chiefly through subscriptions. The time of the showing was cut to three days and success crowned their efforts.

A similar plan may be followed in succeeding years.

NEW AUTO LICENSES TO BE YELLOW AND BLACK

Announcement by Secretary of State Louis L. Emerson today of the colors of 1924 automobile license plates will give Pa Motorists a chance to prepare his new—or old—car to fit the license color scheme.

The figures on the plates will be yellow and the background black, Mr. Emerson says.

Applications for the new licenses are expected to start flooding Springfield soon, the plates to be ready January 1.

Big Events in the Lives of Little Men

Announce Jurors for October Term of Grand Jury

The October grand jury which will report for service on October 1, the first day of the term, has been drawn, and those who have been selected to serve are being notified of the fact.

Indications are that there will be a number of cases up for the consideration of the grand jury at the coming term and it is possible that their deliberations will take several days.

The names of those who will serve are as follows:

Chase Webb, Harry Smith, Antioch; Louis Mitchell, Zion; John D. Thomas, Zion; Nick Brown, Newport; Thomas Brompton, Lake Villa; Lou Hook Avan; George Vose, Warren; Anton Stohley, W. M. Bauer, Andrew Engler, Waukegan; J. S. Strong, North Chicago; W. C. Hardin, Lake Forest; Harry Gleason, Libertyville; William Vickery, Fremont; G. D. Straker, Waukegan; Gottlieb Kuhmann, Sr., Barrington; Henry Kropp, Els; M. H. O'Boyle, Vernon; T. J. Duty, West Deerfield; Fred Rudolph, Deerfield; Roscoe Fletcher, Deerfield.

MACMILLAN CO. HOLD CONFERENCE HERE

J. N. Tankersley, general manager of the western division of The Macmillan Company, publishers, a summer resident of Antioch at Channel Lake, was host to the staff of the Macmillan Company's salesmen and others connected with this organization last week. Gifford's hotel was used for the conference, and despite the rainy weather all were pleased with its success.

Several of the guests took the opportunity to visit the schools of this section. Prominent among those who visited the grade school were Mr. Tankersley, Mr. Foss, northern Illinois representative of the Macmillan Company, and the New York manager. They were enthusiastic in their praise of the facilities accorded to a school of this size, and were pleased with the attention shown them by Mr. McTaggart, the principal.

There are three distinct and essential features in successful milk inspection, according to the United States Department of Agriculture. They are: Dairy inspection, dairy instruction, and laboratory control.

Dairy-farm inspection regulates the conditions surrounding the source of supply. Without it the safety of the finished product can not be assured. This inspection also extends to city milk plants and to the workers in them. Dairy-instruction work is largely educational. It teaches the dairyman to know the proper methods of handling milk in order to assure its being of first quality, and it gives training in sanitary practices in and around the barn and milk house. The milk laboratory enables health officers to see that the quality of the milk supply is maintained, and enables them to control the various methods used in production, transportation, processing and delivery.

Studies of city milk supplies made by the Department of Agriculture show that most large cities have had milk ordinances for comparatively periods. Some cities as large as 50,000, however, have practically no facilities for such work. This is a condition that needs immediate attention, department workers believe, and should be met by sanitarians and city officials as rapidly as possible.

ARRESTED WITH MAIL ORDER DIMMERS

John Meyer, Lake Villa, had mail order dimmers on his automobile lights. He was arrested Sunday night by Deputy Sheriff Delbert Weals for having his headlights too bright at Lake Villa.

Monday morning he was fined \$10 and costs, \$23.25 in all. He paid the fine and remarked in passing:

"I bought those dimmers from a big mail order firm in Chicago. They can have them back."

BOOSTER PARADE FOR COUNTY FAIR HERE

The booster parade from Waukegan for the West Kenosha County Fair appeared in Antioch Saturday morning as per schedule and gave those who were in town a novel piece of entertainment. The band, dressed in all sorts of comic costumes, marched into town from the north and stopped in front of King's Drug store entertained with several selections.

The fair opens today and continues for three days.

Class of '24 Hold Benefit at Majestic

Remember away back when you read Washington Irving's "Legend of Sleepy Hollow"? The seventh and eighth grades of the grade school are reading it now and through the kindness of Mr. Oliver Johnson the eighth grade is giving you an opportunity to again enjoy this wholesome story in movies tonight (Thursday), at the Majestic Theater. Don't miss it—the entire picture cannot help but be good and with Will Rogers as Ichabod Crane, it will be one laugh after another.

The eighth grade certainly appreciates Mr. Johnson's thoughtfulness; he is allowing them the use of the film absolutely free of charge so that they are enjoying themselves immensely.

Miss Olson has three classes in public speaking this year.

The Latin class has been divided into two classes now because of the large number.

The agriculture boys have been moved to the agriculture room because of lack of room in the assembly hall.

The annual junior-freshman party was held Friday night at the school house. All of the freshmen were thoroughly initiated and everyone had a most enjoyable time. Delightful refreshments were served, prepared by the junior girls.

Albert Tiffany and Albert Herman have the pleasure of attending the state fair school this week. Word has been received from them that they are enjoying themselves immensely.

Miss Olson has three classes in public speaking this year.

The Latin class has been divided into two classes now because of the large number.

The agriculture boys have been moved to the agriculture room because of lack of room in the assembly hall.

There will be a supply of blanks at the Farm Bureau offices for those who want to test. It is not compulsory. The government does not expect impossible things of those who sign up, and you will find it easy to cooperate with the county veterinarian and the government. It will pay Lake county dairymen to study this matter carefully and test as soon as possible. Illinois is now declared to be the leader in the fight on T. B. in cattle. Future generations will thank us for taking this step, and those at present on farms will benefit financially as well as in health. All testing free of charge to those who sign up under the plan.

High School Notes

One hundred twenty-five pupils have enrolled in the High School. Sixteen pupils and one teacher are brought to school in a bus, from Grayslake and Lake Villa.

The book binding class has a very large enrollment.

The manual training classes have moved their shop down into the new addition in the basement. The typewriting classes will move into the previous manual training room.

The manual training and farm mechanics boys are putting in a partition in the basement so as to make two rooms. They are also putting plaster board on the ceiling.

Eighteen boys started to practice football Thursday after school. They are working hard getting ready for the first game of the season, which will be Oct. 5th, at Libertyville.

Mr. Watson has started the art metal class with a full enrollment.

Some of the Home Economics girls are wearing their new Home Economics club pins.

The agriculture classes have purchased fifteen white leghorn chickens. They are now getting eight eggs a day. The money for the purchase of the chickens is being raised by selling shares to the students and teachers.

The annual junior-freshman party was held Friday night at the school house. All of the freshmen were thoroughly initiated and everyone had a most enjoyable time. Delightful refreshments were served, prepared by the junior girls.

The veterinarian will soon be hired and farmers may now free of charge have their herds tested and placed under federal supervision, as well as being in line to receive indemnity money besides the beef value for reacting cattle. There never was a time when it was more important to begin cleaning up our herd from tuberculosis as now. If Lake county had stayed out of this area plan of testing, it is safe to say that in a very few years we would have practiced blacklisting so far as sale of milk is concerned.

The Latin class has been divided into two classes now because of the large number.

The agriculture boys have been moved to the agriculture room because of lack of room in the assembly hall.

There will be a supply of blanks at the Farm Bureau offices for those who want to test. It is not compulsory. The government does not expect impossible things of those who sign up, and you will find it easy to cooperate with the county veterinarian and the government. It will pay Lake county dairymen to study this matter carefully and test as soon as possible. Illinois is now declared to be the leader in the fight on T. B. in cattle. Future generations will thank us for taking this step, and those at present on farms will benefit financially as well as in health. All testing free of charge to those who sign up under the plan.

FIRE AT ALLENDALE SCHOOL SATURDAY

A call of fire was received by the Antioch fire department at 4:00 o'clock on Saturday afternoon from the Allendale Farm at Lake Villa. oily rags in one of the dormitories became ignited and the smoke soon filled the entire building, but the flames were quickly subdued by chemicals kept on hand at the school. The new cement road had just been opened and a record run was made to the village south of us, but the danger was over just as the truck arrived.

Captain Bradley of Allendale commented on the quick response, and as a result the firemen are ten dollars nearer the goal of a "paid-for" fire apparatus.

HENRY HALEY WEDS CHICAGO GIRL

Henry Haley of Champaign, Ill., and Miss Kathryn Kouten of Chicago were married in Waukegan on Saturday afternoon.

Mr. and Mrs. John Gevers of Trevor accompanied them. After the ceremony a wedding dinner was served at the Gevers home. Monday morning the newly married couple and Mr. and Mrs. Gevers left for the Dells.

Mr. Haley was well-known in Antioch, where he attended the local high school. He was considered one of the best athletes ever produced at the school, starring in both football and basketball.

HICKORY ITEMS

Mrs. Jeannette Wells spent Saturday and Sunday at the home of her son Curtis.

Mr. Almond Webb is spending some time at the home of his daughter, Mrs. David Pullen.

Mrs. O. L. Hollenbeck returned home Sunday after spending the past week in Chicago.

Mr. Ambrose Colegrave and Miss Edith Colegrave attended the funeral of the sister-in-law at Pontiac on Tuesday.</

Local and Social Happenings

Mrs. Richard Gorman of St. Paul, is visiting this week at the home of Mr. and Mrs. Wm. Rosdag.

Mr. and Mrs. H. Bock and Mr. and Mrs. Arthur Bock have been spending two weeks on the lakes and visiting relatives and old Antioch friends around Chetek. They have been the guests part of the time at the home of Mr. and Mrs. Wm. Barnstable. Mrs. Bock and Mrs. Barnstable are sisters. Mr. Bock has just finished a fine new cottage on Flynn's Point. —Chetek Alert.

Mr. Potter's sister, Mrs. Ida Martin of Litchfield, is spending a couple of weeks here.

Mrs. Jack Mann of Hickory road entertained at a Bunco party Wednesday afternoon. Mrs. Nick Baker won first prize. Mrs. Bert Dickey won the bonny prize. Chop suey was served with other dainty refreshments. Mrs. Dickey snapped a picture of the crowd. All had a delightful time as Mrs. Mann is a fine hostess.

Miss Hazel Van Alstine and Mr. Frank VanDuzer of Kenosha were Sunday guests of Mr. and Mrs. W. J. Van Duzer.

Mr. Potter and sister motored to Chicago on Monday with Mr. Christiansen.

Mr. and Mrs. D. D. Campbell and daughter, Miss Anna and Mr. Sorenson and family of Silverlake, Ill., and Mr. and Mrs. Paul Gerke of Taylors lake motored to the "Dells" last week and enjoyed a few days outing.

Mr. and Mrs. Herbert Savage of Sandwich, Ill., spent the past week with the former's sister, Mrs. Sol LaPlant.

Mr. Bertram Pond of Chicago was a week end guest at the LaPlant home last week.

Mr. Potter and family and sister, Mrs. Ida Martin motored to Lake Geneva Saturday.

Work clothing; all sizes. Chase Webb.

Phone 29 Farmer's Line

DENTIST

(Lorated with Dr. H. F. Beebe)
Antioch, Illinois

Mrs. William Hillebrand and daughter, Miss Martha, and Mrs. Maude Sabine returned home on Friday evening after enjoying a two weeks' trip to Yellowstone Park, Salt Lake City and other places of interest. They report an excellent trip.

Mr. and Mrs. John Horan and family left on Monday morning for a week's auto trip to Chetek. They have been the guests part of the time at the home of Mr. and Mrs. Wm. Barnstable. Mrs. Bock and Mrs. Barnstable are sisters. Mr. Bock has just finished a fine new cottage on Flynn's Point. —Chetek Alert.

The George Bartlett house received a coat of paint last week.

Preparations are being made to move the Wilton flat building onto the lot recently purchased on Victoria street. It is reported that Mr. Pesat has purchased the building and expects to make the building over into two up-to-date flats with all the latest modern improvements.

Mrs. Frank Dibble and Mrs. Adolph Pesal were Chicago visitors on Monday.

Mrs. N. P. Larsen and Mrs. Whitefoot and children of Kenosha were visitors at the home of Mrs. Larsen's daughter, Mrs. Chris Mortensen on Saturday last.

Mr. and Mrs. Chris Mortensen and family and Mr. and Mrs. Fred Sorenson and baby motored to Kenosha on Sunday and visited relatives.

Mrs. Tom Sullivan and daughters and Mr. and Mrs. A. Steineger motored to Kenosha Sunday afternoon and called on friends.

Mrs. E. O. Butterick of Waukegan was visiting Mrs. Emma Bartlett and other Antioch friends this week.

Mrs. Richard Slyster and sons were in Kenosha Tuesday.

Mr. and Mrs. Andrew Harrison visited relatives near Woodstock on Sunday.

Mrs. Sherman Ferris left Tuesday for Holdcroft, Va., where she will visit for a month. On her return she will be accompanied by her two sons, who have been visiting their grandparents in Virginia.

Mrs. Andrew Harrison visited her sister, Mrs. James Todd, at Twin Lakes last Saturday.

Royal Neighbors will have a card party on Thursday evening, Sept. 20. Five hundred will be played.

Mr. and Mrs. E. O. Hawkins and family and Miss Edith Edgar motored to Waukegan Sunday.

L. O. Bright was a Chicago passenger Saturday.

Ed Rentner visited over Sunday in Chicago at the home of his sister, Mrs. E. J. Shur.

Miss Margaret Wagner visited Sunday afternoon at Salom, Wis., with her girl friend, Miss Susie Hilbert.

Thorval Laursen and lady friend of Racine visited last Sunday at the home of the former's parents, Mr. and Mrs. Pete Laursen.

The Ladies' Guild will meet on Wednesday afternoon, Sept. 26, at the home of Mrs. Charles Sibley.

Mr. and Mrs. James Stearns were Waukegan visitors on Monday morning.

Mr. and Mrs. George Wagner took in the ball game at McHenry last Sunday.

Floyd J. Frank of Chicago visited his aunt, Mrs. Margaret Davis and other relatives on Thursday.

A large crowd from here attended the ball game at McHenry last Sunday.

A farewell party was given at the James Gray home Saturday night in honor of Frances, James and Miss Helen Gray. The young people had a delightful time playing games and dancing. A very nice lunch was served.

Mr. and Mrs. Herman Wlenke of Fox Lake visited on Sunday with Mr. and Mrs. G. Schilke and in the afternoon Mrs. Schilke accompanied them to Bristol and called on Mr. Wlenke's parents.

The Rev. Kolbeck will be here next Sunday morning and preach at the 11 o'clock service. All members and friends of the church try and be present.

Mrs. Clean of Chicago spent the past week with her parents, Mr. and Mrs. H. S. Message.

Luluver Lasco and Roy Kennedy left Friday for Champaign to attend the University of Illinois.

Mr. and Mrs. William Lasco and sons Lester, William and Graeola spent Sunday with Mr. and Mrs. Wm. Hanke.

Boys' suits, pants and caps. At Chase Webb's.

NOTICE TO MY PATRONS

Owing to the condition of my health my office will be closed from Sept. 15th, to Oct. 15.

2w3 Dr. F. S. Morrell.

Miss Helen Gray is spending some time with Fred Powles before going to Waukegan with her parents, who moved there this week.

Mrs. Albert Krahn and Mrs. Lucia Krahn and little son Melvin called on the latter's mother, Mrs. Hulda Lasco.

Mr. and Mrs. Jim Stearns and Mr. W. F. Lasco motored to Waukegan on business Monday.

Mr. George Dowell and son of Wm. are putting in a new basement for W. F. Lasco.

Mr. and Mrs. W. F. Lasco and family motored to Salem Sunday afternoon.

Mr. Chester Paesch is on the sick list this week.

George Garland and Ray Webb were up to Nippersink golfing Tues-

day.

Mr. and Mrs. Gideon Thayer and Mrs. John Grimm left on Thursday morning for Chetek, Wis., where they will visit with relatives.

Mr. and Mrs. Lynch left Sunday night for a two weeks vacation. They will visit relatives at Ashland, Ladysmith, Escanaba, Mich., and on their return trip at Appleton and Fond du Lac, Wis.

Mr. W. F. Lasco motored to Burlington on business Tuesday.

Mr. Elmer Ralphy and wife and brother Raymond of Rockford spent the past week visiting at the homes of Elsie Sheehan and Andrew Lynch.

Elmer Brook, Frank Powles and Maurice Radtke motored to Chicago on Wednesday.

The General Store located in the opera house block and the M. Delicatessen store located in the Kline building have closed their places of business for the winter months.

Mrs. Ruth Van Patten, who has been at Bristol nursing for the past several months has returned to her home here for a much needed rest.

Mr. and Mrs. Lee Middendorf were Chicago visitors over Sunday.

Gordon Ames left the latter part of last week for the University of Illinois at Champaign, where he will go to school.

Mrs. Inez Ames visited at LaGrange over the week end.

A. G. Watson attended the funeral of his wife's mother at Waukesha on Wednesday. Mrs. Watson has been at Waukesha helping care for her mother for some time.

Mr. Ambrose Colegrove and Miss Edith Colegrove returned Wednesday from Pontiac, Ill., being called there by the death of their brother's wife, who passed away on Sept. 15, and was laid to rest on Tuesday of this week. Mrs. Hiram Colegrove was a former Antioch resident having lived east of town the greater part of her life. The many friends here extend sympathy to the bereaved family.

Mrs. Sara Wallace of Waukesha, aged 90 years, died Sunday. Funeral services were held on Wednesday at Waukesha. Mrs. Wallace was well known in Lake county where she has relatives. They are: her daughter, Mrs. A. G. Watson of Antioch, and grandchildren, Mrs. L. J. White of Waukegan, Harvey Watson of Area and Leland Wilson of Lake Forest.

Mrs. Clara Turner returned home on Monday after visiting over the week end with her daughter at Norwood park.

Miss Mildred LaPlant spent Friday in Chicago going on from there to Champaign, where she will resume her studies at the university.

NOTICE

John Alden will open his class in piano playing on Saturday, Sept. 22, at Mrs. A. G. Watson's residence, on Main street. Phone 174J 3w4

**POTATOES FOREMOST AMONG
OUR VEGETABLES IN VALUE**

The potato is foremost in value among our vegetables. It is the chief money crop of large areas, an important staple in many others, and is grown for home supply and local markets in almost every farming district.

The wise or unwise marketing of the potato crop may easily mean a difference of millions of dollars in the farmers' income in a year, according to the United States Department of Agriculture. This is particularly true of the late or main crop of potatoes, which comprises about four-fifths of the total production.

Potato crop and market news supplied by the United States Department of Agriculture includes crop and market reports and summaries of many kinds published at eight field stations located in the prominent shipping sections and at about a dozen market stations, including the Washington office. These reports contain the necessary facts of production, condition, shipment, prices, demand and quality. By persistently using and comparing reports from

day to day and season after season, they become more and more useful in showing the potato holder when, how, and where to sell.

The general condition and course of the market is best indicated by the leading grades of the most important commercial varieties in the largest and most active markets. Among the regular price developments to be looked for in average seasons is a comparatively low price at digging time with some gain as shipments decrease of when winter conditions begin, then several months of moderate up and down, and then another swing, upward or downward, with the opening of spring activity. The proportion of stocks held by dealers on January 1, has often proved an indication of the course of the late winter and spring markets.

Cooperative Associations Exempt From Income Tax, Says U. S. Report

(Continued from Page 1)

cation does not meet the requirements of the statute and is not exempt. The accumulation and maintenance of a reasonable reserve for depreciation or possible losses or a reserve required by state statute or a reasonable sinking fund or surplus to provide for the erection of buildings and facilities required in business, or for the purchase and installation of machinery and equipment, or to retire indebtedness incurred for such purposes will not destroy the exemption.

A corporation organized to act as a sales agent for farmers, or to market cooperatively the products of the farm, and having a capital stock on which it pays a dividend not exceeding the legal rate of interest in the state in which it is incorporated and in which substantially all of the outstanding capital stock is owned by actual producers, will not for such reasons be denied exemption, but any ownership of stock by others than actual producers who market their products through the association must be satisfactorily explained in the application for exemption. In every case the association will be required to show that the ownership of its capital stock has been restricted as far as possible to actual producers, and that the association has not voluntarily sold or issued any stock to non-producers. Thus, if by statutory requirement all officers of an association "must be stockholders, the ownership of a share of stock by a non-producer to qualify him as an officer, will not destroy the association's exemption. Likewise, if a stockholder for any reason ceases to be a producer and the association is unable, because of a constitutional inhibition or other reason beyond the control of the association, to purchase or retire the stock of such non-producer, the fact that, under such circumstances, a small amount of the out-

standing capital stock is owned by stockholders who are no longer producers will not destroy the exemption.

(b) Cooperative associations organized and operated as purchasing agents for farmers, fruit growers, live stock growers, dairymen, etc., for the purpose of buying supplies and equipment for their use and turning over such supplies and equipment to them at actual cost, plus necessary operating expenses, are also exempt. The provisions of paragraph (a) relating to a reserve, sinking fund or surplus and to capital stock shall apply to associations coming under this paragraph.

In order to be exempt under either (a) or (b) an association must establish that it has no net income for its account, other than that reflecting in a reserve, sinking fund or surplus specifically authorized in paragraph (a). An association acting both as a sales and a purchasing agent is exempt if as to each of its functions it meets the requirements of the statute."

D. H. BLAIR,
Commissioner of Internal Revenue.
Approved: September 6, 1923.

A. W. MELLON,
Secretary of the Treasury.

More than a 50 per cent reduction in the amount of freight claims for loss and damage was made in 1922 compared to 1921. Instead of the \$96,700,000 paid out in 1921, only \$48,050,000 was paid during 1922. The Forest Products Laboratory of the United States Department of Agriculture gets credit for a share of these savings due to their work in improving methods of boxing and crating. The educational work in introducing the better practices was stimulated by the American Railway Association which conducts a bulletin service giving causes of losses and how they may be corrected or minimized.

DIFFERENT WAYS OF DEALING WITH HOT SCHOOL LUNCHES

The idea of at least one hot dish at the noon meal for rural school children has developed rapidly in the counties of North Carolina through the influence of food production and food preparation demonstrations carried on by extension workers. In some places questions concerned with obtaining materials for the lunch equipment for heating and serving it or time to prepare it, have arisen. These have been met in various ways according to a report received by the United States Department of Agriculture.

The Women's Club at Lilesville, Anson county, N. C., partly financed the hot school lunch last year, and it was also supplemented by things they brought from home. Each teacher, with the aid of the larger girls, prepared the hot soup for her own room. The rural children enjoyed it immensely, and all the town children wanted to stay, too. In the summer 250 quarts of soup mixture and tomatoes were canned by mothers and donated for winter lunches.

In two schools in Halifax County the larger girls do the work connected with serving the hot lunch, under the supervision of the teacher. It is so divided that only two or three are taken away from classes at a time, when the girls are on duty they plan their menus and see that the supplies are on hand.

In one community a woman gives all the milk needed. Some of it is sold for 3 cents a glass. This money is used to buy other supplies. All lunch dishes are sold at cost. In another place the children bring a great many of the supplies from home such as potatoes, canned tomatoes, milk and eggs. No charge is made for the hot dish. Considerable improvement in the quality of the cold lunch carried was noticed in most schools after demonstrations in food selection and preparation given by the home demonstration agent.

New Fords Are On Display at Local Garage

The first of the new type Fords cars which recently arrived in this city are now on display at the showroom of the Antioch Sales & Service Station, local Ford dealer.

The higher radiator, now standard in all Ford types, has brought general improvement throughout the entire line and the new radiator apron blending with similar apron effects on the fenders gives the front of the car a highly finished appearance.

The Touring Car shows a decided improvement having a more streamline effect. It is lower in appearance, a feature adding much to the attractiveness of the slanting windshied and one-man top.

The Ford Runabout is likewise much improved and looks more sturdy.

The Coupe is entirely new in body design and construction. There is a more trim exterior appearance, more comfortable seating arrangement and greater luggage carrying capacity. From the dash there is a graceful sweep in the cowl to the radiator. The doors are wide and heavily framed. A larger compartment at the rear gives increased room for luggage and the new type rear fender is more secure. Ventilator in the cowl and a visor over the windshield add to the exterior appearance, affecting a high quality aspect.

Interior arrangement is most convenient and the upholstery is choice. The seat is deeply cushioned and the cushions are divided making it easy for filling the gasoline tank which is under the seat. A small recess shelf at the rear of the seat is handy for small parcels. The door windows are equipped with revolving type window regulators permitting any desired ventilation. Doors are provided with locks.

The higher radiator has greatly en-

hanced the beauty of the Ford Four.

Ford Four-Door Sedan
Larger cowl, hood and higher radiator bring a vastly improved appearance to the new Ford Four-Door Sedan and this enclosed type, which has enjoyed unusual popularity since it was added to the Ford line, now presents a greater attractiveness than ever before.

The change in the front of the car, which has produced a more sturdy effect, gives a highly pleasing and graceful sweep to the body lines.

Enlarging the cowl has affected the interior in affording more foot room for occupants of the front seat thus assuring added riding comfort.

The interior fittings are in choice materials and seats are huge and deeply cushioned.

Any desired ventilation may be secured through the revolving type window regulators which are on all door windows. A dome light is provided for interior illumination.

WIDE AREA COVERED LAST YEAR IN BARBERRY SCOUTING

An area equivalent to 200 counties was covered during the last fiscal year in the farm-to-farm survey for barberry bushes. This is one step in the fight against wheat rust which is being carried on by the United States Department of Agriculture in cooperation with State agricultural colleges, State departments of agriculture, and the Conference for the Prevention of Grass Rust. The work consisted of a survey and a resurvey for sprouting bushes and seedlings. It was carried on in Colorado, Illinois, Indiana, Iowa, Michigan, Minnesota, Montana, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin, and Wyoming. In all, 740,856 bushes were removed from 6,799 properties in the preliminary survey while 66,670 sprouting bushes and 9,138 seedlings were destroyed in the follow-up campaign.

Since the beginning of the barberry eradication work in 1918 practically all cities and villages of the thirteen States within the quarantine area have been surveyed. In the original farm-to-farm survey an area equivalent to 484 counties has been covered including 39 counties surveyed on funds furnished by States. In the five years' total of 5,234,946 bushes and seedlings have been destroyed on 53,610 properties.

An attractive meal, how to plan one which will be nourishing, economical, and appetizing, using the materials grown on the home farm or ordinarily at hand in the farm kitchen, was the interesting problem on which more than 5,000 club girls worked in 1922 under the direction of cooperative extension agents. In this study these young home makers prepared, according to reports to the United States Department of Agriculture, more than 36,000 meals.

GOOD SEED CHEAPEST MEANS OF INCREASING CORN YIELDS

Corn yields can be increased more surely and cheaply by the use of good seed than in any other way, says the United States Department of Agriculture. Unless a community has an experienced and honest corn breeder, the best place for the farmer to get seed corn is from the fields on his farm or in his neighborhood which were planted with a variety that has proved successful in the locality. The time for selecting seed corn in the field is almost here and preparations for handling the seed should soon be under way.

In selecting corn for seed, the ears should be taken from stalks which yield best in competition with others. Picking the seed corn direct from the field will give the farmer a chance to do this, and also to get ears that are free from disease and hang at a height convenient for husking. Drooping ears which shed rain readily usually will give the best seed, while in the South it is necessary to choose ears that are well protected from insects by a long, tight husk covering.

The same day the seed is gathered it should be hung in a dry, airy place. One of the best ways to cure seed corn is to hang it from the rafters of a barn or open shed, care being taken to see that it is thoroughly dry before there is danger of freezing. After it is well cured, store the corn in a dry place where it will not be damaged by mice, rats, birds and insects. The corn that produces the best crop is cheapest in the long run and care in selecting and handling seed corn will be more than repaid by increased yields.

A HARD RED SPRING WHEAT

RESISTANT TO STEM RUST

A hard red spring wheat that is resistant to the principal forms of black stem rust has been developed in North Dakota by the United States Department of Agriculture and the North Dakota Agricultural Experiment Station. This wheat was first introduced from Russia in 1903 by Prof. H. L. Bolley, and is now known as Kota. About 6,000 acres of Kota wheat were grown in 1922, and much more this year.

The particular virtue of Kota wheat is its resistance to the black stem rust which is general throughout the hard red spring wheat region. Its rust resistance was not determined until after the great rust epidemic of 1916. It is also fairly resistant to drought and outyields Marquis in North Dakota, having averaged nearly 3 bushels more per acre during the past five years. It is a bearded wheat which ripens about as early as Marquis. In milling and baking experiments conducted independently by the Department of Agriculture and the North Dakota Experiment Station Kota wheat has shown results nearly equal to those obtained with Marquis.

Experiments with Kota wheat have been carried on in a number of other States as well as in North Dakota, and the wheat was found best adapted to the district where durum wheat is extensively grown. Kota wheat could replace much of the durum wheat now grown in eastern North Dakota and South Dakota with profit to both the hard red spring and the durum wheat industries, department workers believe. This variety is recommended for North Dakota and adjacent portions of neighboring States.

THE LIGHT OF WESTERN STARS

A Romance

by Zane Grey

Illustrations by L. W. MYERS

Copyright by Harper and Brothers

Stewart muttered deep under his breath, evidently cursing.

"Wonder why he didn't come on up here?" he queried, presently. "He can see a trail."

"Whi, Gene, Pat knew you was here all right, fer they ranger said Pat hed wind of the guerrillas, an' Pat said if Don Carlos didn't kill you—which he hoped he'd do—then it'd be time enough to put you in jail when you come down."

"He's dead set to arrest me, Nels."

"An' he'll do it, like the old lady who kept tavern out West. Gene the reason that red-faced coyote didn't trail you up here is because he's scared. He alias was scared of you. But I reckon he's shore scared to death of me an' Monty."

"Well, we'll take Pat in his turn. The thing now is, when will that Greaser stalk us, and what'll we do when he comes?"

"My boy, there's only one way to handle Greaser. I shore told you that. He means rough toward us. He'll come smilin' up, all sociable like. Ingluatin' an' sweetin' a woman. But he's treacherous; he's wuss than an Indian. An', Gino, we know for a positive fact how his gang hev been operatin' between these hills an' Agua Prieta. We know jest about what the rebel war down there amounts to. It's guerrilla war, an' shore some hard time fer a lot of cheap thieves an' outcasts."

"Oh, you're right, Nels. I'm not disputing that," replied Stewart. "If it wasn't for Miss Hammond and the other women, I'd rather enjoy seeing you and Monty open up on that bunch. I'm thinkin' I'd be glad to meet Don Carlos. But Miss Hammond! Why, Nels, such a woman as she is would never recover from the sight of real gun-play, let alone any stunts with a rope. These eastern women are different. I'm not belittlin' our western women. It's in the blood. Miss Hammond is—"

"Shore she is," interrupted Nels; "but she's got a d— a sight more spunk than you think she has, Gene Stewart. I'm no thick-skinned cow. I'd hate somethin' powerful to her Miss Hammond see any rough work, let alone me an' Monty startin' somethin'."

"An' mo an' Monty'll stick to you, Gene, as long as seems reasonable. Mind, ole feller, beginn' your pardon, you're shore stuck on Miss Hammond, an' overstander not to hurt her feelings or make her sick by lettin' some 'blood'. We're in bad here, an' mebbe we'll have to fight. Sabe, senor? Wal, if we do you can jest gamble that Miss Hammond'll be game. An' I'll bet you a million pesos that if you got goin' onct, an' she seen you as I've seen you—wal, I know what she'd think of you. This old world 'ain't changed much. Some women may be white-skinned an' soft-eyed an' sweet-voiced an' high-souled, but they all like to see a man! Gene, here's your game. Let Don Carlos come along. Be civil. If he an' his gang are hungry, feed 'em. Take even a little overhavin' Greaser talk. Be blind if he wants his gang to steal somethin'. Let him think the women hev musked down to the ranch. But if he says you're lyin'—if he ne much as looks round to see the women—jest jump him same as you jumped Pat Howe. Me an' Monty'll hang back fer that, an' if your strong blist don't go through, if the Don's gang even thinks of flashin' guns, then we'll open up. An' all I got to say is if them Greasers stand for real gun-play they'll be sure fast I ever seen."

"Nels, there are white men in that gang," said Stewart.

"Shore. But me an' Monty'll be thinkin' of that. If they start anythin' it'll hev to be shore quick."

"All right, Nels, old friend, and thanks," replied Stewart.

Nels returned to the campfire, and Stewart resumed his silent guard.

Madeline's guests sat talking in low voices until late hour. The incident now began to take on the nature of Helen's longyearned-for adventure. Some of the party even grew merry in a subdued way. Then, gradually, one by one they tired and went to bed.

To keep from thinking of Stewart and the burning anger he had caused her to feel for herself, Madeline tried to keep her mind on other things. But thought of him recurred, and each time there was a hot commotion in her breast hard to stifle. Intelligent reasoning seemed out of her power. In the daylight it had been possible for her to be oblivious to Stewart's deceit after the moment of its realization. At night, however, in the strange silence and hovering shadows of gloom, with the speaking stars seeming to call to her, with the moan of the wind in the pines, and the melancholy mourn of coyotes in the distance, she was not able to govern her thought and emotion. She had inadvertently heard Nels' conversation with Stewart; she had listened, hoping to hear some good news or to hear the worst; she had

learned both, and, moreover, enlightenment on one point of Stewart's complex motives. He wished to spare her any sight that might offend, frighten, or disgust her. Yet this Stewart, who showed a fineness of feeling that might have been wanting even in Boyd Harvey, maintained a secret rendezvous with that pretty, abandoned Bonita. Here always the hot shame, like a live, stinging, internal fire, abruptly ended Madeline's thought. The whole ensemble gave an impression of carelessness indifference.

The sound of horses' hoofs grew louder and slowed its beat. One of the cowboys pointed down the trail, toward which several of his comrades turned their head for a moment, then went on with their occupations.

Presently a shaggy, dusty horse bearing a lean, ragged, dark rider rode into the camp and halted. Another followed, and another. Horses with Mexican riders came in single file and stopped behind the leader.

"Buenos dias, sonor," ceremoniously said the foremost guerrilla.

By a straining' her ears Madeline heard that voice, and she recognized it as belonging to Don Carlos. Stewart answered the greeting in Spanish, and, waving his hand toward the campfire, added in English, "Gone down and eat."

The guerrillas were anything but slow in complying. They crowded to the fire, then spread in a little circle and squatted upon the ground, laying their weapons beside them. The cowboys were not cordial in their reception of this visit, but they were hospitable. The law of the desert had always been to give food and drink to wayfaring men, whether lost or hunted or hunting.

"They appear to be friendly enough," whispered Madeline. "Ambrose, tell me—explain to me—the real thing."

"Sure. Gene thinks they're after you Indians—to carry you off. But Gene— Oh, Gene's some highfalutin in his ideas lately. Most of us boys think the guerrillas are out to rob—that's all."

Whatever might have been the secret motive of Don Carlos and his men, they did not allow it to interfere with a hearty appreciation of a generous amount of food. Then, as each and every one began to roll and smoke the inevitable cigarette of the Mexican, there was a subtle change in manner. They smoked and looked about the camp, off into the woods, up at the crags, and back at the leisurely cowboys. They had the air of men waiting for something.

"Senor," began Don Carlos, addressing Stewart. As he spoke he swept his sombrero to indicate the camp circle.

Madeline could not distinguish his words, but his gesture plainly indicated a question in regard to the rest of the camping party. Stewart's reply and the wave of his hand down the trail meant that his party had gone home. Stewart turned to some task, and the guerrilla leader quietly smoked.

He looked cunning and thoughtful. Presently a big-boned man with a bullet head and a blistered red face of evil coarseness got up and threw away his cigarette. He was an American.

"Hey, cull," he called in loud voice, "ain't yo goin' to cough up a drink?"

"My boys don't carry liquor on the trail," replied Stewart.

"How, haw! I heard over in Rodeo that ye was gittin' to be shore some fer temperance," said this fellow. "I hate to drink water, but I guess I've gotta do it."

He went to the spring, sprawled down to drink, and all of a sudden he thrust his arm down in the water to bring forth a basket. The cowboys in the hurry of packing had neglected to remove this basket; and it contained bottles of wine and liquors for Madeline's guests. They had been submerged in the spring, to keep them cold. The guerrilla fumbled with the lid, opened it, and then got up, uttering a loud roar of delight.

Stewart made an almost imperceptible motion as if to leap forward; but he checked the impulse. "Guess my party forgot that. You're welcome to it."

Like bees the guerrillas swarmed around the lucky finder of the bottles.

Plained to her the exigency of the situation. "I might run, but I'll never scream," said Helen. With that Ambrose had to be content to let her stay. However, he found her a place somewhat farther back from Madeline's position, where he said there was less danger of her being seen. Then he sternly bound her to silence, tarried a moment to comfort Christine, his wife, noting no maid to the ladies, and returned to where Madeline lay concealed. He had been there scarcely a moment when he whispered:

"I hear horses. The guerrillas are comin'."

Madeline's hiding place was well protected from possible discovery from below. She could peep over a kind of parapet, through an opening in the tips of the pines that reached up to the cliff, and obtain a commanding view of the camp circle and its immediate surroundings. She could not, however, see far either to right or left of the camp, owing to the obstructing foliage. Presently the sound of horses' hoofs quickened the beat of her pulse and caused her to turn keener gaze upon this cowboys below.

Although she had some inkling of the course Stewart and his men were

to pursue, she was not by any means prepared for the indifference she saw. Frank was asleep, or pretended to be. Three cowboys were lazily and unconcernedly attending to campfire duties, such as baking biscuits, watching the ovens, and washing tins and pots. The elaborate set of aluminum plates, cups, etc., together with the other camp fixtures that had done service for Madeline's party, had disappeared. Nick Steele sat with his back to a log, smoking his pipe. Another cowboy had just brought the horses closer into camp, where they stood waiting to be saddled. Nels appeared to be fussing over a pack. Stewart was rolling a cigarette. Monty had apparently nothing to do for the present except whistle, which he was doing much more loudly than melodiously. The whole ensemble gave an impression of carelessness indifference.

The drink did not last long, and it served only to liberate the spirit of recklessness. The several white outlaws began to prowl around the camp; some of the Mexicans did likewise; others waited, showing by their ill-concealed expectancy the nature of their thoughts.

It was the demeanor of Stewart and his comrades that puzzled Madeline. Apparently they felt no anxiety or even particular interest. Don Carlos, who had been covertly watching them, now made his scrutiny open, even aggressive. The guerrilla leader seemed undecided, but not in any sense puzzled.

In her growing excitement Madeline had not clearly heard Ambrose's low whispers and she made an effort to distract some of her attention from those below to the cowboy crouching beside her.

The quality, the note of Ambrose's whisper had changed. It had a slight sibilant sound.

"Don't be mad if sudden-like I clap my hands over your eyes, Miss Hammond," he was saying. "Somethin's brewin' below. I never seen Gino so cool. That's a dangerous sign it is, man. And look, see how the boys are workin' together! Oh, it's slow and acciden-tal-like, but I know it's sure not accident. That toxy Greaser knows, too. But maybe his men don't. If they are wise they haven't sense enough to care. The Don, though—he's worried. It's Nels and Monty he's watchin'. And well, we need do it!

There, Nick and Frank have settled down on that log with Boddy. They don't seem to be packin' guns. But look how heavy their vests hang. A gun in each side! Those boys can pull a gun and flop over that log quicker than you can think. Do you notice how Nels and Monty and Gino are square between them, guerrillas and the trail up here? It doesn't seem on purpose, but it is. Look at Nels and Monty. How quiet they are cattablin' together, paying no attention to the guerrillas. I see Monty look at Gino. Well, it's up to Gino. And they're goin' to back him. I reckon, Miss Hammond, there'd be dead Greasers round that camp long ago if Nels and Monty were foot-loose. They're holdin' to Gino. That's plain. And, Lord! how tickles me to watch them! Both packin' two forty-fives, butts swingin' clear. There's twenty-four shots in them four guns. And there's twenty-three guerrillas. If Nels and Monty ever throw guns out at that close range, why, before you'd know what was up there'd be a pile of Greasers. There, Stewart said something to the Don. I wonder what. I'll gamble it was something to get the Don's outfit all close together. Sure! Greasers have no sense. But them white guerrillas, they're lookin' some dubious. What-ever's comin' off will come soon, you can bet. I wish I was down there. But maybe it won't come to a scrap. Stewart's set on evolin' that. He's a wonderful chap to get his way. Lord, though, I'd like to see him go after that overbearin' Greaser! So! the Don can't stand prosperity. All this strange behavior of cowboys is beyond his pulse-sunken brains. Then he's a Greaser. If Gino doesn't knock him on the head presently, he'll begin to get over his scare, even of Nels and Monty. But Gino'll pick out the right time. Never saw Nels in 'but one fight, then he just shot a Greaser's arm off for tryin' to draw on him. But I've heard all about him. And Monty! Monty's the real old-fashioned gunman. What I don't understand is how Monty keeps so quiet and easy and peaceful-like. That's not his way, with such an outfit lookin' for trouble. O-hai! Now for the grand bluff. Looks like no fight at all!"

(To be continued.)

LIVE STOCK

Twin Brother to T. B.

Cause of Cattle Loss

"The twin brother to tuberculosis" is one of the names given by veterinarians to a fatal disease which causes lameness in any herd where it gains entrance.

This disease, also called Johne's disease, and resembling tuberculosis somewhat in symptoms and effects, is not a new one but has often been confused with tuberculosis, so long but recently been credited with the seriousness that it deserves. Herds in dairy states are menaced if this twin brother to T. B. once gets its hold on a dairy animal.

"It is believed that once Johne's disease gets under way in the animal herd it is certain to result from it," says B. A. Beach, veterinarian at the Wisconsin College of Agriculture. "The annual loss in Wisconsin as far reported may run as high as 12 per cent in badly infected herds. The disease is a contagious one and purchase from an infected herd is usually the origin of the trouble in other herds."

"Another bad feature of this disease is that it generally affects only young heifers. Because of this tendency to affect the most valuable stock and because its spread is so rapid, this disease is worse than tuberculosis."

Symptoms of Johne's disease show about six months after the germs of infection gain entrance to the body. Immediately after calving is when the infected animals are most apt to show the symptoms.

Infected animals lose flesh rapidly so that they become mere walking skeletons. Diarrhea occurs at intervals and the milk flow is greatly reduced and finally stops. The disease, which is contracted through the mouth in feeding yards, can be detected by the Johnin test, which according to Mr. Hastings, head of the bacteriology department at the experiment station, is similar to the tuberculosia test.

"That much can be done," says Mr. Hastings, "through the use of this test, to decrease the spread of this disease in a herd. The department declares it to be all the more necessary to treat the country's forests as crop lands rather than as timber mines with no thought of replacement."

Complete descriptions of the symptoms and effects of the disease and methods of detection and prevention of its spread in dairy herds are given in bulletin 843 issued by the agricultural station, Madison, Wis.

Economical Hog Ration

Given by Ohio Station

In a bulletin recently published by the Ohio experiment station on "supplements to corn for fattening swine," some figures were given on the various amounts of feed required to produce 100 pounds of gain. The pigs used were pure breeds, weighing about 82 pounds each, and were fed in dry lots by means of self-feeders. One lot was fed corn and tankage at the rate of 12 parts corn to 1 part tankage. Fe

Of Interest to Antioch Farmers

Timely topics and local news concerning stockmen, poultrymen, gardeners and dairymen. Edited by G. L. KUTIL

New Club Organized

The Antioch High School Agricultural Club, consisting of twenty-seven charter members was organized on September 12. This club promises to be a leader in affairs of an agricultural nature. The High School Farm has already been taken over by the Club and work has begun. A flock of single comb White Leghorn hens has been purchased by the organization and placed in one of the school farm poultry houses. The club is to take an active part in the coming Farmer's Institute this winter.

The officers of the club are: Lester Nelson, president; Charles Paul dock, vice president; Robert Alvers, secretary; and Lester Palmer, treasurer.

Storing Vegetables for Winter

The diet of the American people has changed considerably within the last twenty-five years, seldom do we hear of a family that tries to exist through the winter, without vegetables. It was common, as some of us remember, for a family to depend on potatoes wholly. In this article it will be shown how some of the other vegetables may be stored.

Carrots are best kept in sand in cool cellars. If the cellar is dry cover the roots with wet sand and enjoy fresh carrots all winter.

Cabbage can be wrapped in paper with the outer leaves left on and place-

ed in a ventilated barrel or a large crate in a cool cellar. However, most cellars are not cool enough hence a shallow, long and narrow pit may be dug in the garden and the cabbage, root and all, placed head down in it. Cover lightly with soil and as the weather gets cold cover with about 6 or 7 inches of soil keeping the ends of the pit slightly open so ventilation may take place. Some very fine cabbage may be had as late as the month of April.

Onions require a cool dry place. An attic is excellent. Before storing, cure them by exposing to the air in a shady place for a few days. Onions are best for storage purposes when topped an inch and a half long. Dryness in storage is very essential.

Potatoes can be kept till Christ-

mas time by pulling the vines before frosted and hanging them up in the cellar.

Red beets and other root crops may be kept the same way as carrots. Potatoes should be in a well-ventilated, cool and moist place, and never piled deeper than four feet in the bin. It is advisable to raise the bin so air can circulate from underneath.

If potatoes are kept in light they will turn green.

If fresh vegetables are wanted, there is no better way of putting them up for the winter—they are as nearly alike the freshly picked vegetables as could be.

net profit than with any other kind of livestock. The hen roosting on the leafless tree produces no eggs.

Seed Corn

It begins to look as though there might develop a real scarcity of seed corn next spring. Unless you have a desirable lot of old corn, it will pay to give particular attention in selecting seed. Even in the most matured fields corn is full of moisture, and early frost has caught some fields.

The outside of the barn is not the best place to dry seed corn this year, as it will need to be protected from freezes. Lying up on twine or seed corn hangings in the attic or some form where it can dry out thoroughly without danger of freezes while still full of moisture, is the safest place for it. Experience has shown that seed corn can be picked as early as in the glazed or well-dented stage, and if properly dried, make good seed.

LIVE STOCK NOTES

If a sow farrows during severe weather, artificial heat may be needed for the farrowing pen.

The silo saves labor; cattle can be fed easily and quickly from the silo which is close at hand and always in a feeding condition.

A combined hay and cattle barn makes an economical arrangement for many farms. Make the hay door for your barn less than 8 feet wide and 12 feet high. Slings will go through this.

Sheep require salt and it should be available at all times, for an irregular supply induces overeating of the salt, which causes scour. Rather than limiting the supply of salt or of mixing it with their feed it is best to let sheep eat as much as they wish.

Steers fed succulent feeds usually sell 15 cents to 75 cents per hundred-weight higher on the market in addition to making larger gains. Cost must be considered, however, in buying succulent feeds, as water has no food value of its own.

Long-Lost Ring.

Three years ago a woman lost her diamond engagement ring on the sands at Frinton, Essex. The local police were notified at the time, but nothing was heard of the ring until a few weeks ago, when she was informed by the Cheltenham police that it had been found on Frinton sands.

The Difference.

A mountain farmer near Benford West, Cape Colony, wanted a telephone. The authorities said a connection would cost him £500. So he laid the line himself. It was inspected and passed—and he has saved £450.

Trevor Happenings

Mr. and Mrs. Charles Oetting attended the wedding of a nephew in Chicago on Wednesday.

Rev. Gephart of Kenosha preached a very helpful sermon at Social Center hall on Sunday afternoon. He will preach again Sunday, Sept. 30, at 2:30 p.m.

Mr. Tony Fredson of Racine transacted business in Trevor Wednesday.

Miss Daisy Mickie spent the first of the week with friends in Chicago.

Mr. and Mrs. George Patrick, Milton Patrick, Mrs. Hiram Patrick and Miss Patrick attended the Racine County fair at Burlington on Wednesday.

The Parent-Teachers Association met at Social Center hall Tuesday evening and was well attended. Mrs. Mathews was elected vice-chairman and the resignation of Mrs. John Gaver as secretary was accepted and Mrs. Ambrose Runyard elected to the office.

The law of the church requires every pastor to read and explain the general rules of the church once a year in each congregation. The occasion of the reception of members was taken as most appropriate for this.

The general rules, as read, forbid profane swearing, Sabbath-breaking, buying, selling or drinking intoxicating liquors, fighting and quarreling, uncharitable or unprofitable conversation, especially speaking evil of magistrates or of ministers, taking such diversions (amusements) as cannot be used in the name of the Lord Jesus, singing songs and reading books which do not tend to the knowledge or love of God, borrowing or buying without the probability of paying.

Mr. and Mrs. Allen Copper and daughters Grace and Gertrude were Chicago shoppers Monday.

Mr. and Mrs. Friedhoff have purchased the Mrs. Tony Fredson property and will take possession in the near future.

Miss Ruth Curtis gave a party to a few of her many friends on Wednesday evening.

Mr. and Mrs. George Higgins and daughter Geraldine of Wilmot called on Trevor friends Thursday.

Mrs. Byron Patrick and sons Robert and Ray and Mrs. George Patrick attended a dinner at Silver Lake Community hall Thursday.

Mrs. Andrew Harrison, and her mother, Mrs. Clark, of Antioch were Trevor callers Friday.

Mrs. John Kouch entertained her brother from Chicago Thursday.

Mr. and Mrs. Wm Atchenberg attended the Racine County Fair at Burlington Wednesday. Mrs. Atchenberg remained for a few days visit with her sisters, Misses Maria and Agnes Harkness and Mrs. Wren.

Mrs. Robert Dixon and Mrs. Clara Dixia of Silver Lake called on Miss Patrick Friday.

Mr. and Mrs. Lorine Mickie attended a meeting of the Eastern Star at Wilmot Wednesday evening.

Mrs. Harvey Gaines and daughter Florence and Mrs. Woodbury of Bristol called on Miss Patrick Friday.

Accompanied by the Wilmot band Wilmot Fair boosters gave Trevor a call Saturday morning.

Mr. Dan Longman left for Chetek Saturday, where he will visit his daughter Florence and family and his sisters, Mrs. James Barnstable and Mrs. Wm Barnstable.

Mrs. Charles Oetting and daughter Adeline went to Fort Wayne, Ind., Saturday morning to attend a family reunion of the Oetting and Bushing families.

Mr. and Mrs. Charles Miller and daughter of Chicago spent Sunday with Mrs. Miller's mother, Mrs. Ann Sheen.

Miss Cathryn Bunker went to Chicago Sunday to spend a couple of weeks with relatives and friends.

Mrs. Fred Forester and Mrs. Sam Mathews were Silver Lake shoppers Saturday.

A number of Trevorites responded to the call for help Saturday evening, when the barn of Richard Jones in Bristol burned to the ground. A large quantity of hay and grain was destroyed.

Mrs. Willis Shoen entertained a few friends Wednesday afternoon in honor of her birthday.

Mr. Fred Schreck attended a meeting of the directors of the Silver Lake State Bank on Tuesday.

Mrs. Kate Van Osdel and son, Mrs. Flanagan and two daughters of Chicago called on Mrs. Kouch on Sunday.

Mrs. Ann Sheen and daughter Mary spent last week with Mrs. George Vincent near Powers Lake.

Mr. and Mrs. George Patrick and son Milton called on Mr. and Mrs. Herman Smith at New Munster on Sunday.

Mr. Elmer Anderson of Racine was a guest of Miss Eva Endor over the weekend.

Will Meekleberg is repairing and enlarging his sheep sheds. Carpenters from Racine are doing the work.

Mrs. Wm. Kruckman and children of Burlington called on her parents, Mr. and Mrs. H. C. Patrick on Saturday.

Mr. and Mrs. Wm. Meekleberg autued to Racine Sunday.

Mr. and Mrs. Will Murphy and children of Burlington spent Sunday afternoon at the home of Mr. and Mrs. Harry Lubbock.

Mr. and Mrs. Eugeno Runyard of Waukegan spent Sunday evening with the former's parents, Mr. and Mrs. Ambrose Runyard.

Mrs. Ira Brown and daughter, Mrs. Arthur Bushing, called on Mrs. Sarah Upson of Bristol on Friday.

Methodist Episcopal Church News

Last Sunday several received baptism and a number united with the church. The pastor explained that baptism is the special sign and seal ordered by Christ Himself to show that we are His, and that it is also a token that we are to be baptized with the Holy Spirit. Each one baptized was called upon to ask God for the baptism of the Holy Spirit then and there and to receive it by faith at once.

The law of the church requires every pastor to read and explain the general rules of the church once a year in each congregation. The occasion of the reception of members was taken as most appropriate for this.

The general rules, as read, forbid profane swearing, Sabbath-breaking, buying, selling or drinking intoxicating liquors, fighting and quarreling, uncharitable or unprofitable conversation, especially speaking evil of magistrates or of ministers, taking such diversions (amusements) as cannot be used in the name of the Lord Jesus, singing songs and reading books which do not tend to the knowledge or love of God, borrowing or buying without the probability of paying.

The general rules also enjoin upon each member that he feed the hungry cloth the naked, visit or help those who are sick or in prison, be constant and faithful in efforts to win others to Christ, be ready to bear reproach for Christ without flinching, be present at all the regular and special services of the church, observe family and private prayer and study of the Bible. Other items of less importance are also included. The rules explicitly say that all who desire to continue as members are expected to keep all these general rules.

The coming Sunday morning the Rev. James Lawrence Anderson of Chicago will preach. Dr. Anderson is an old college friend of the pastor of over thirty years ago.

All finances should be in hand by the end of this week to give time for making out conference reports.

A "LIVE AT HOME" CAMPAIGN POPULAR IN NORTH CAROLINA

In 47 counties of North Carolina a "live at home" campaign, backed by the governor of the State, revived interest in gardening, poultry, hogs, and dairy work during 1922. People pledged themselves to plant larger and better gardens both to feed the family and sell the surplus. A report received by the United States Department of Agriculture gives many statistics on the results achieved. Halifax County is typical. As a result of its garden work there were 260 new summer gardens, 100 new winter gardens, and vegetables sold to the amount of \$5,011. The Mecklenburg County home demonstration agent reports that in addition to gardens planted, 100 milk cows have been brought into the county, and families in the mill districts of Pasquotank County were interested in backyard gardens. The mills gave a number of vacant lots rent free to their employees who raised quantities of vegetables.

The total egg production through poultry work in 24 counties is estimated at about 400,000 eggs, of which about one third were sold, another third used for hatching or sold for breeding purposes, some preserved in water, glass, and many used at home.

Pure-bred poultry was urged everywhere. The 2,323 demonstrators enrolled in dairy work in these counties had 9,000 cows which they managed according to methods advocated by extension workers. Butter was made by 2,361 demonstrators, to the estimated value of \$18,061.70, of which about one-ninth was sold. Cottage cheese, cream, sweet milk, and buttermilk were used at home and sold, and 3,853 persons reported increased use of milk and milk products in their family diet.

The "live at home" idea was carried out in the booths at the State fair. When a variety of vegetables from the home garden was shown in one booth, how to use them in the diet was demonstrated in another.

The same idea was carried out by relating poultry, eggs and butter to the nutrition booth.

The chief advantage of the late potato over its earlier brethren is its keeping quality which permits its sale and use all winter and through the early summer the following year, says the United States Department of Agriculture. This involves special methods. The whole question of successful late-potato marketing can be summed up under four heads, according to department workers. They are: (1) Careful planning from the planting time to day of sale; (2) full use of crop and market news; (3) good handling, grading and loading; and (4) readiness to learn from the methods of other potato growers.

"Cora in need of hotter weather," says the column next the last.

"Workman killed in Holick's quarry by a premature blast."

Says an item by a special correspondent out of town.

"Price of wheat and corn and taters is slowly going down."

"Prince of Wales has got the measles," well it's bad enough at that.

Mrs. Williams' cousin's aunt has been bitten by a cat."

Many other things I notice as I run the columns down,

When a feller gets the paper from the Old Home Town.

What is this? Upon my honor, here is something really good.

"Jerry Smith, our Coroner, found a man in Watson's wood."

Who had hung himself, (the story says) and was dead when he was found.

And beneath the swaying bough howled his white-and-liver hound."

"Heary Hecker's sorrel trotter, yesterday,"—no, day before,—

"Run away and threw him out, and Hank is pretty sore."

The doctor says he will survive; Dr. Rice of great renown."

Says the snappy little paper from the Old Home Town.

COOPERATIVE EGG MARKETING

The farm poultry flock has made a source of cash income as well as of food for the family by many farm women who have learned from their agricultural extension agents the best methods of poultry management and preparation of products for market.

The experience of the women of Fairhaven, (Ga.) community, is typical of the work in many States. These farm women, desiring to improve the earnings of their flocks, brought up to the weekly meeting of the extension club, where the home demonstration agent showed them high-grade and pack properly packed meat.

This was continued to the week until the members were then to do the work themselves.

Organized to ship their eggs cooperatively, securing as customer a grocery store in a nearby city and according to reports to the United States Department of Agriculture, have been carrying on a satisfactory busi-

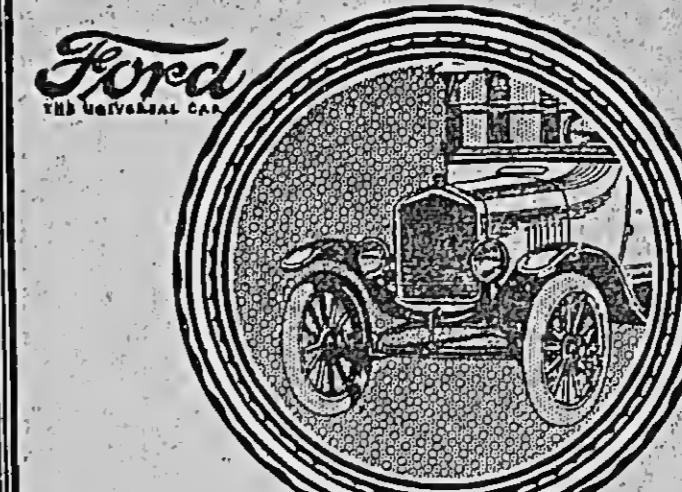

ness for more than a year.

Now cooperative egg mark-

sociations organized in 1921, handling eggs in 1921, some 40

organizations handled about

Old Home Town, eggs.

Announcement

The new Ford cars are now ready for your inspection, introducing changes that improve the appearance of the various body types and increase their comfort and utility.

They offer you not only economical and dependable transportation, but also a more attractive style and a greater share of motoring convenience—a combination that makes the outstanding value of Ford cars more impressive than ever.

See the new Ford models now on display in our showroom.

These cars can be obtained through the Ford Weekly Purchase Plan.

THAT HOME TOWN PAPER

(By George H. Wallace)

There's a heap of satisfaction when a feller gets the mail,

When the people all around him in the lobby never fall

To pass him by a 'just a man' who isn't much,

Lake Villa News

Mrs. Fred Hamlin entertained a cousin from the city over Saturday and Sunday.

Mrs. B. J. Hooper spent a few days last week with friends and relatives in Chicago.

Mr. and Mrs. Wilmington of Round Lake spent last Thursday with their daughter, Mrs. Lee Sherwood.

Mr. and Mrs. Will Pester have moved to rooms connected with the Peterson store, as the Lund cottage which they occupied, has been sold.

Mr. and Mrs. Charles Hoard of Cleveland, Ohio, spent a few days last week with relatives, the Hamlin families. They were driving through Los Angeles, Cal., to spend the winter, and were camping on the way. Henry Cull was a recent Chicago visitor.

Mrs. John Shlimberg and daughter of Waukegan were week end guests of her aunt, Mrs. E. Thayer.

Chicago passengers last week were M. S. Miller, F. M. Hamlin, Mrs. Jarvis and Elizabeth.

Mrs. Norman Burnet and Mrs. John Mitchell of Libertyville spent Tuesday with friends here, and Mrs. George Gooding of Grayslake spent the day with her parents.

Mr. and Mrs. Charles Cook and Mildred are attending the State Fair at Springfield this week.

Fire broke out in one of the Allen-dale cottages last Saturday afternoon and a call was sent to the Antioch fire department, who responded in short

FRENCH DRY CLEANING

Dyeing and Repairing are three important factors in conjunction with the tailoring business. Another very important feature is Alterations of garments, refitting, resewing, etc. That is not all—What is more pleasing to a man than a nice gentle appearance suit. I have hundreds of the very latest samples from which to select an o'coat or a suit of clothes. Correct measurement, together with the correct description of the form enables me to guarantee just the kind of a suit or o'coat anyone would be pleased to wear. May I serve you in any of the above. Your patronage is solicited. My slogan is honest workmanship, right prices, square dealing.

T. A. FAWCETT
Tailor

Successor to Peterson the Tailor

The Church on the Hill

The conference is fast drawing to a close, only two more Sundays are left, so let us make those the best of the year. Why not begin now to make the coming months a record year in this church.

Next Sunday will be Communion Sunday, and Rev. James of Grayslake will be present to take charge of the service. Everyone is invited to be present. Rev. Kean will take Rev. James' place at Grayslake for the date, Sept. 30. Come and bring your friends and neighbors.

Mystery of Glow Worm.

Glow worms are much more brilliant when a storm is coming than at other seasons. Like many other mysteries of nature, this curious circumstance has never been explained.

The New United HIGHWAY SPECIAL

The Highway Special has the strength and the road clearance essential to satisfactory farm use, yet the graceful lines, fine finish and low suspension make it the handsomest delivery car on the market, when equipped with the De Luxe Panel Body. A light truck of capacity up to 2,000 lbs. has proven its economy and utility. This is the type that is now in demand for all uses except the hauling of heavy material.

Ranchmen View Results

at Idaho Sheep Station

(Prepared by the United States Department of Agriculture.)

Ranchmen from various parts of the Northwest recently spent a day at the United States sheep experiment station, Dubois, Idaho, where animal husbandmen of the Department of Agriculture demonstrated the results of much of the work which has been carried on there for several years. There were 75 visitors, including representatives of several state experiment stations and several men from the department at Washington, Montana, Idaho, Utah, Colorado and Wyoming were represented.

At this station the department has been working for a number of years on sheep-breeding problems, range management and winter maintenance.

A part of the field day, which was held May 20, was taken up by a shearing demonstration in which ranchers had an opportunity to observe the yield and quality of fleeces from the various lots of sheep. About 750 animals were sheared that day, and during the season 2,300 fleeces were taken off. Most of the sheep being raised there are Rambouillet and coarse-wool, fine-wool crossbred types such as Corriedale and Columbia, the latter a type developed by the department.

The Rambouillet at this government ranch are an American type developed particularly for this region where feed is comparatively sparse. They differ from the old type in bearing larger and smoother and finer from wool on the face. Detailed records are kept on the wool and mutton produced by all the different types, the feed and grazing, labor and the financial returns.

The Corriedale have been found to produce an excellent quality of wool, but the Columbus yield heavier fleeces and their lambs are heavier. A cross of these two crossbred types is being tried out and so far has been very successful both as a wool and mutton producer.

The field day visitors were taken in automobiles over the range to show them the results of protecting the range where 17,000 acres has been enclosed by a fence for three years. This has been found an effective way for building up a good stand of grass, as the feed inside the fence was much better than that just outside as a result of protection against roaming stock. The department also has demonstrated the value of insuring a water supply by the drilling of wells and the construction of reservoirs. It has been found to pay to haul water as much as three miles during very dry weather, the cost being about one-fourth cent a head daily during these periods. The water required daily per ewe is between two-thirds and three-fourths of a gallon.

At the winter headquarters, where there is a stockade for 2,500 ewes, sunflower silage has been fed along with alfalfa hay with great success. The yield of this feed has been about four tons to the acre. Other feeds being tried there are alfalfa, sweet clover, peas, oats and beans, different rates of seedling being used.

Farrowing Troubles Can Be Eliminated by Feeds

Often a brood sow is unjustly condemned. If she kills or starves her young, it is sometimes the fault of the caretaker.

She should be fed sparingly for the first few days after farrowing, increasing gradually, so that the milk will not be produced faster than the pigs can take it. By judicious feeding, the milk glands are unduly stimulated, and if the milk is not all consumed, will cause irritation and inflammation. The suffering mother will not allow the pigs nourishment, thus starving them, or in her pain, she may sometimes kill them. Correct feeding will eliminate nine-tenths of the troubles at farrowing.

LIVE STOCK NOTES

Working the stallion is a good method of giving him exercise.

Allowing young pigs plenty of sunshine is a big item in raising them successfully.

Calves, pigs and lambs that make their owners the most profit are sired by pure bred sires.

To toughen hogs' shoulders after the winter's rest, bathe them with salt water daily for a week.

If there is plenty of feed, especially skim milk, and the pigs are strong and robust, they may be weaned at eight weeks.

The fundamental principle in feeding weaned pigs is to keep them with keen appetites. Feed just as much as they will clean up readily.

Let the hogs have free access to the minerals in self-feeders. Add one part tankage at first and the hogs will learn more quickly to eat the minerals.

WILMOT

The Wilmot baseball team met defeat at State Line Sunday afternoon in a hard fought 12 inning game by a score of 2-1. Next Sunday they will play Burlington at Burlington.

Mr. and Mrs. J. Cosman of Wheeling spent the week end with Mr. and Mrs. J. Frank.

Fred Frank and Mrs. O. Holtorf of this village were married at the Lutheran parsonage by Rev. Jedeole on Thursday evening.

Mr. and Mrs. F. Beck were in Ralston Monday to be with their daughter, Violet, who underwent an operation at St. Mary's hospital that afternoon.

Mrs. N. Knudson was in Wilmot several days making final preparations for the family's removal to Chillicothe.

Gertrude Lentz, of Bassett, spent several days with her sister, Mrs. D. Netl last week.

Mr. and Mrs. A. Reynolds spent the week end with Mr. and Mrs. W. Petersen at Kenosha.

Mrs. D. Brownell and son Tom were guests over Sunday of Mr. and Mrs. Spiegeloff of New Munster.

Paul Ganzlin accompanied his daughter, Doris Ganzlin to Milwaukee on Monday, where she entered Milwaukee Normal.

Mr. and Mrs. F. Kruckman and Dale spent Sunday with the Misses Kruckman of Kenosha.

Mr. and Mrs. John Hasselman of Kenosha came out for the week end with Mrs. J. Hasselman.

Fred Jorgensen of Kenosha spent Monday with Mr. and Mrs. H. Seldschlag.

Mrs. J. Blenc spent the last of the week in Milwaukee.

There will be English services with communion next Sunday at 10:00 a.m., at the Ev. Lutheran church. Harold Kleinhan of Milwaukee will deliver the sermon.

Guests Sunday of Mr. and Mrs. A. C. Stoxen were Mr. and Mrs. R. F. Tuttle of Poplar Grove, Ill., and Mr. and Mrs. Lyons of Belvidere, Ill.

A. C. Stoxen returned Friday from a business trip to New York, and Washington, D. C.

Mrs. J. Carey and Grace Carey spent Wednesday in Chicago.

Sister Lena Rasch, of Milwaukee has been visiting the past week at the Rasch home in Wilmot.

Mr. and Mrs. Geo. Benedict of Lena, Ill., were guests two days of last week of Mr. and Mrs. Arthur Holtorf.

George Faulknor suffered a very painful accident Friday afternoon when he fell through a hole in the hay loft of his barn to the ground floor a distance of twenty feet. Mr. Faulknor's head hit a stanchion and he was badly cut but was fortunate in not having been more severely hurt.

Prio. Ihlenfeldt was in Milwaukee one day last week.

Mrs. A. Barnstable of Missoula, Mont., and Mrs. W. Carey and Mrs. C. Webb of Antioch called on Mr. and Mrs. R. Shottell Thursday.

Mr. and Mrs. M. Anderson left on Monday morning for Madison, where they will stop a short time before they continue their automobile trip to Spencer, Iowa. Mr. and Mrs. Anderson plan to spend several weeks in Spencer visiting the former's parents.

Miss Metcalf was at her home in Milwaukee over the week end.

Mr. and Mrs. Schmidt and Mr. and Mrs. C. Andree and son Jack of Milwaukee were recent guests at the Walter Carey home.

Rev. Jedeole and his mother, Mrs. J. Jedeole and Mrs. Rechert spent Tuesday in Racine.

Mrs. Runyard and Mary Runyard of Channel Lake were visitors Monday at the home of Mr. and Mrs. Geo. Dowell.

Marie Mattern was home from Kenosha over the week end.

A number of men interested in pushing the West Kenosha County fair neccompanied the U. F. H. S. band and their Director Clarence Wright on a Booster Trip to seventeen of their neighboring town and cities on Saturday. Sixteen of the band boys were dressed as clowns, their leader, Mr. Wright, was a very animated Darky Lady. George Higgins made a remarkable Uncle Sam, while Charles Schultz and Paul Ganzlin were much remarked about couple—dutchman and his best girl.

Frank Burroughs was the life of the crowd as a typical gentleman from the 'Old Sod'. Mr. Burroughs enlivened the program at several of the minstrels.

Calves, pigs and lambs that make their owners the most profit are sired by pure bred sires.

To toughen hogs' shoulders after the winter's rest, bathe them with salt water daily for a week.

If there is plenty of feed, especially skim milk, and the pigs are strong and robust, they may be weaned at eight weeks.

The fundamental principle in feeding weaned pigs is to keep them with keen appetites. Feed just as much as they will clean up readily.

Let the hogs have free access to the minerals in self-feeders. Add one part tankage at first and the hogs will learn more quickly to eat the minerals.

Bebe Daniels at Majestic Two Days

A superb fashion show, such as will delight all feminine screen lovers, will be seen in Dwan's Paramount production of "Glimpses of the Moon," which is announced by Manager Johnson for a two day's showing at the Majestic theater beginning Saturday next.

In addition to the luxurious furs, gowns and wraps worn by the principal female characters, which are played by Bebe Daniels, Nita Neidell and Ruby de Roman, Director Dwan secured the services of a dozen maidens from Hickson's and Clark's, two foremost dressmaking establishments in New York. These girls have been trained in the art of displaying costumes in a manner that will get under the skin of even the most hard-fisted of husbands and compel them to buy the gowns in the fond belief that the attractive clothes will transform their perhaps unattractive wives.

The maidens do some effective work in the modiste shop which is the scene of their activities, and together with the fashionable shopper in the establishment, stage a pageant of costly evening gowns, afternoon frocks, street dresses, fur-trimmed suits, wraps, beautiful hats and lingeries that is certain to arouse every woman's desire for the lovely garments. David Powell is leading man.

Carriage Worth \$200,000. The most valuable carriage in the world is preserved in the palace of Triton at Versailles, on the outskirts of Paris. It was constructed for Charles X of France. From pole to hind wheels the vehicle is thickly covered with gold, and it cost more than \$200,000.

To Control Radio. A bill has been introduced in the Danish rigging to give the government control of radio telephony in Denmark.
